

classic sanitary disposal unit

classic

Classic Unit

Unique slimline design, allows the unit to be sited in individual cubicles.

A mini unit is available where space is restricted.

All lids are fitted with privacy trays to prevent visibility of the contents.

For hands free operation a foot pedal is available.

Dimensions

Classic Unit

Height: 515 mm
Width: 148 mm
Depth: 388 mm
Capacity: 24 litre

Mini Classic Unit

Height: 330 mm
Width: 148 mm
Depth: 388 mm
Capacity: 17 litre

classic sanitary disposal unit

Complete protection & peace of mind

Each unit contains Cannon Hygiene's exclusive sanitising treatment which is specially formulated to release a vapour within the unit and render all the waste harmless. It is composed of entirely natural substances and is completely environmentally friendly with the added safety benefit of being effective against all bacteria, fungi and viruses including HIV, Hepatitis B & Hepatitis C.

Unrivalled Service Provision

Cannon Hygiene recognise the importance of your individual requirements and can tailor their service to meet your exact requirements. Upon your agreed service dates, each unit is discreetly exchanged with a stringently cleansed replacement. Cannon take care of the whole service and guarantee that all waste collected from your premises is safely transported to our waste transfer station and legally disposed of.

Did you know ...

Untreated sanitary waste can contain many bacteria and viruses including:

HIV - can survive (and remain infectious) for several days under dry conditions and for several weeks under wet conditions if protected by blood.

Hepatitis - can survive (and remain infectious) for at least one week under dry conditions and for several weeks under wet conditions if protected by blood.

Salmonella - causes diarrhoea and vomiting.

MATERIAL SAFETY DATA SHEET

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY UNDERTAKING

Commercial product name Biotal #7
Description A sanitising product for waste disposal units.
Manufacturer: Biotal Technologies LLC,
 Rubicon House,
 2565 Thompson Bridge Rd
 Suite 113
 Georgia 30501, USA
 Tel: 770 297 2700
 Fax: 770 297 2797

2. COMPOSITION AND INFORMATION ON INGREDIENTS

Composition/information on ingredients: An mixture of essential oils, essential oil components and solvents on a non-woven carrier.

CAS No. Not applicable, product is a preparation

Hazard symbol: Xi, Irritant

Risk phrases: R36: Irritating to eyes
 R43 May cause sensitisation by skin contact

Contains	Hazard Symbol	Conc %
Cinnamic aldehyde	Xn; R21, 38, 43	<20%
Isopropanol	F; R11, R36	>20%

3. HAZARDS IDENTIFICATION

Prolonged or repeated skin contact may produce an allergic reaction in sensitive individuals.

4. FIRST AID MEASURES

Skin contact: Remove contaminated clothing. Wash off thoroughly with soap and water.

Eye contact: Immediately flood the eye with plenty of water for at least 15 minutes holding the eye open.

Wash out eye with plenty of water

Inhalation: Remove to fresh air.

If symptoms persist seek medical advice

5. FIRE FIGHTING MEASURES

Suitable fire fighting extinguishing media: Carbon dioxide, dry chemical, foam

Non-suitable media: Direct water jets

Special protective equipment: Avoid inhalation of smoke and fumes. In case of insufficient ventilation, wear suitable respiratory equipment.

Protection against fire and explosions: Not applicable

6. ACCIDENTAL RELEASE MEASURES

Wear appropriate PPE. Transfer into a suitable container and dispose of in accordance to local regulations.

7. HANDLING AND STORAGE

Handle in accordance with good occupational hygiene and safety practices in a well ventilated area. Avoid contact with skin and eyes. Store containers in a cool dry place.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Personal protective equipment

Respiratory protection: Not required

Hand protection: Wear suitable gloves: nitrile/latex combinations or laminate barrier gloves are recommended if contact is likely to be prolonged

Eye Protection: Wear suitable eye protection

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	Moist non-woven sheets
Odour:	Characteristic odour
pH (suspension in water):	7-8
Solubility in water:	Not soluble
Boiling Point:	n/a
Melting Point:	n/a
Flash Point:	n/a

10. STABILITY AND REACTIVITY

The material is stable under normal conditions of use

Conditions to avoid: None

Materials to avoid: Strong oxidising agents

Hazardous decomposition products: None

11. TOXICOLOGICAL INFORMATION

Acute oral toxicity: LD50: >10,000 mg/kg (calculated, rat)

Irritant effect: Eye irritation: In the event of direct contact with the eyes, may cause irritation
Skin irritation: Slightly irritating

Sensitisation effect: Prolonged or repeated skin contact may cause allergic skin reaction

12. ECOLOGICAL INFORMATION

This product is believed not to be dangerous to the environment with respect to mobility, persistency and degradability, bioaccumulative potential, aquatic toxicity and other data relating to ecotoxicity.

13. DISPOSAL CONSIDERATIONS

No special disposal method required, except that it be in accordance with current local authority regulations.

14. TRANSPORT INFORMATION

Not classified as hazardous for transportation.

15. REGULATORY INFORMATION

Labelling in accordance with CHIP 3 regulations:

Classified as: Irritant
Symbol Xi

R-phrases:

R36: Irritating to eyes

R43: May cause sensitisation by skin contact.

S-phrases:

S-24/25: Avoid contact with skin and eyes

S36/37: Wear suitable protective clothing and gloves

16. OTHER INFORMATION

Explanation of other risk phrases that appear in this MSDS:

R11 Highly flammable

R21 Harmful in contact with the skin

R38 Irritating to skin
